Professional Summary

Results-driven Computer Science Engineering graduate with a strong foundation in technical Skills. Hands-on experience through academic projects and internships involving frontend development and secure carpooling application design. Skilled in problem-solving,application development, database management and maintainable code. Quick learner with strong analytical and communication skills, seeking an opportunity to contribute to software development, application engineering, and technology-driven projects while continuously expanding technical expertise.

Education

B.Tech in Computer Science and Technology <i>Nimra College of Engineering and Technology</i>	2022 – 2026 <i>CGPA: 7.84/10</i>
Intermediate – MPC <i>Sri Chaitanya Junior College</i>	2020 – 2022 <i>Percentage: 66%</i>
Board of Secondary High School <i>Gnana Jyothi Vidhyalayam High School</i>	2019 – 2020 <i>Percentage: 93%</i>

Technical Skills

Programming Languages	Java, C
Web Technologies	HTML5, CSS3
Database	SQL, Relational Database Fundamentals
Tools & Platforms	Visual Studio Code, GitHub, Microsoft Office, EditPlus
Operating Systems	Windows, Linux

Projects

Secure Carpooling System:	<i>Academic Project</i>
- Designed a web-based carpooling concept focused on enabling users to find and coordinate shared transportation in a structured and user-friendly environment. - Applied front-end development concepts using HTML and CSS to structure and style user-facing pages and improve usability. - Incorporated secure-system considerations such as controlled user interaction and responsible handling of user-related data. - Applied software development fundamentals to organize system requirements and design a practical solution for ride-sharing coordination.	
Personal Portfolio Website:	<i>Personal Project</i>
- Developed a responsive personal portfolio website to present professional information, technical skills, education, and projects in a structured digital format. - Used HTML and CSS to create clean page structure, consistent styling, navigation, and responsive user-interface elements. - Focused on accessibility, readability, simple navigation, and professional presentation across different screen sizes.	

Certifications

- AWS Cloud Practitioner
- Android developer virtual Intern

Professional Strengths

- Strong analytical thinking and problem-solving approach.
- Good foundation in programming and software development concepts.
- Ability to learn new tools, technologies, and development practices quickly.
- Effective communication, teamwork, and willingness to collaborate in professional environments.
- Detail-oriented approach toward writing, testing, and improving technical solutions.
